

GearMotor for *Quarter Turn Electric Actuator*

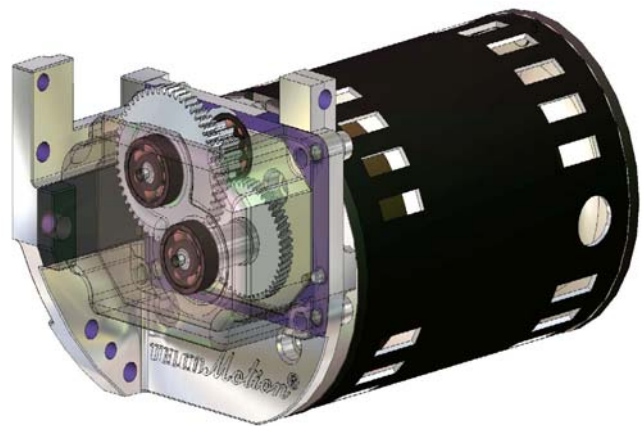

WWW.TELCOINTERCON.COM

Highlight

- High Precision, Cost Effective, Compact Size
- Heavy Duty Construction
- Special De-
signed for Flow Control Industry

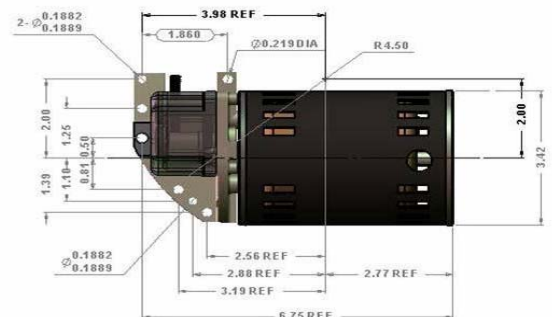

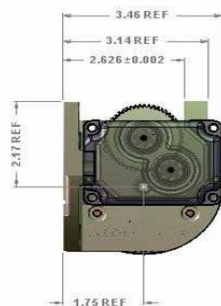

FEATURES:

- Both AC/DC Voltage Available: 120 or 220, Volt AC and 12/24/36VDC
- Meets UL and CSA Standards
- Die Casting Aluminum Endcaps
- Insulation Class B and F
- Application: Valve Actuators, Blowers, pumps, Medical Equipment and Food Industry
- Motor Diameter available in 3.11", 3.42", and 3.86" inches diameter
- Motor Power ranges from 1/60 to 1/4HP

- Powerful High-torque, permanent split-capacitor, reversible induction motor
 - Motors have UL approved thermal overload protections
 - Special Designed for compact quarter turn electric actuator Industry
 - Good for the electric actuator torque ranging from 300 to 6,500 in-lb rating
 - Able to achieve the time level from 10 seconds to 60 seconds rating
