

Motion Solution for *Cleaning Industry*

APPLICATIONS

Commercial and Industrial Vacuums
Carpet Extractors
Floor Machines
Scrubbers
Burnishers
Sweepers
Specialty Cleaning Machines

TELCOMOTION'S SOLUTIONS FOR CLEANING INDUSTRY

Products from TelcoMotion are well suited for a wide variety of cleaning equipments. From vacuum motors to PMDC motors, to gearmotor, to transaxles and linear actuators, TelcoMotion products offer smooth operation and reliable product life that is critical for cleaning equipment. Our engineering capabilities allow us to offer the most cost-effective solution to your needs.

TelcoMotion's Solutions:

- Vacuum Motor
- PMDC Motor
- Gearmotor
- Transaxles
- Linear Actuator

Telco Intercontinental Corp.

Motion Solutions

VACUUM MOTOR

Applications

- Vacuum
- Extractor

Features

- Flow through and Bypass
- 100 to 240 Volts
- 3.39"~5.67" diameter
- Double Ball Bearing Construction
- 200~1600w Output power
- Class "A E B F" Insulation options

PMDC MOTOR

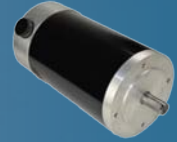

Applications

- Scrubbers
- Polisher

Features

- 24 or 36VDC Input Voltage
- Rated Power: 450W
- 500 RPM Shaft Output
- Rated Torque: 7800mN.m
- 15 or 22.5A Rated Current
- Insulation Class: B

GEARMOTOR

Applications

- Scrubber
- Polisher

Features

- 24 or 36VDC Input Voltage
- Rated Power: 80W
- 75 RPM Shaft Output
- Rated Torque: 5500mN.m
- 2.2 or 3.3A Rated Current
- Ratio: 14.5:1
- Insulation Class: B

TRANSAXLES

Application

- Automatic floor machines

Features

- Dependable, Quiet for Reliable, Long Life Operation
- Four Standard Frame sizes: 63mm, 82mm, 90mm and 105mm
- Output Power: 270w to 950w
- Speed: 3800~5100rpm
- Customization

LINEAR ACTUATOR

Application

- Sweeper
- Scrubber

Features

- 12/24/36 VDC Input
- Load Capacity: 750~8000N
- Speed: 16~50 mm/s
- Stroke: 50~700
- 20% Duty Cycle
